### HIS MOTHER'S BOY.

A mother once owned just a commonplace boy.

A shock-headed boy.

A freckle-faced boy.

But though he was handsome, and so said with joy:

For mothers are funny, you know—

Quite so—

About their sons' beauty, you know.

His nose, one could see, was not Grecian, but pug.

And turned up quite snug.

Like the nose of a jog.

But she said it was "piquant," and gave him a hug.

For mothers are funny, you know—

Quite so—

About their sons' beauty you know.

His eyes were quite small, and he blinked in the sun.

But she said it was done

As a mere piece of fun

And gave an expression of wit to her son.

For mothers are funny, you know—

Quite so—

About their sons' beauty, you know—

The carrot love-locks that covered his head.

She never called red,

But Auburn instead.

"The color the old masters painted," she said.

For mothers are funny, you know—

Quite so—

About their sons' beauty, you know.

Now, boys, when your mothers talk so let it pass;

Don't look in the glass.

Like a vain, silly lass.

But go tend the baby, pick chips, weed the great.

Be as good as you're pretty, you know—

Quite so—

As good as you're pretty, you know.

The greatest number confined at any one time was 34; the lowest 8. There are 18 cells in the building.

### ENCOURAGE HOME INDUSTRY.

To the Editor of The Tribune:—

DEAR SIR:—In view of the dull times would it not have been well for the School Board to have had the seats for the school house made in Deseronto, particularly as I hear that the tender made by the Rathbun Company was less than the price paid by the Board for the seats lately purchased elsewhere. I believe also that the seats manufactured here would have been of a much stronger make than those lately purchased.

Yours truly,

MECHANIC.

### LET US EAT AND DRINK.

To the Editor of The Tribune:—

DEAR SIR:—Being a stranger in town, or rather a new comer, and having heard of the wonderful enterprise and the go ahead lot of pushers here, the first thing that I said upon me was, "What am I to do for something to eat?" Good gracious, at home in my native town our grocers and bakers are ever on the watch for something to catch the eye and to fill up our poor mortals. Why, you cannot buy a simple pie or an eatable bun in this town. I find the old, old musty bun we used to buy twenty years ago. So far as the baker is concerned you have nothing to brag of. Why do not one of these bakers run up to one of the cities and spend a few months learning to make pastry? There is one of the best openings for something of that kind in Deseronto. Why, it is simply disgusting, nothing but bread and old buns, and go into our grocery stores, and what do you see—salt fish, salt meat, nothing new or spicy. It is all *Lein* in this town, whether you like it or not. I may be a dyspeptic old grumbler but all the same I am a hungry

### NEW COMER.

PREPARED FOR BREAKS.

The man who has an open link at hand is prepared for a break in a chain. When work, which a chain is used to take some from the barn, it is well to take some of these links along with you. They will make a dozen, of different sizes, of good wrought steel, for a light sum. Have the ends bent slightly inward, for the elasticity of the metal will prevent the parts being brought quite together, and unless the ends are bent inward they will stand open to catch your clothing, etc. From a piece of buck skin or oiled leather, which can be got at a leather store, strings can be cut which are just the thing for sewing broken straps, for splicing broken sticks, or even for connecting the parts of a broken chair, until better mending can be done. It is well to have one of these things tied to some part of every set of harness. Straps are quickly and securely mended by splicing the ends and joining them with copper rivets. These should have large heads, and corresponding washers for the ends to be hammered down. When an inch or more long they are excellent for holding in place spliced sticks. American Agriculturist for March.

### A LONG FELT WANT SUPPLIED.

We are glad to be able to announce that the steamer "Hero" has arranged to make regular trips three times a week from Bay

Fort to the Thousand Islands during the season of pleasure travel next year. With such a number that usual from the Bay

visiting the Islands, as well as Americans exploring the Bay and looking up the best fishing grounds, camping places, etc., or visiting the natural curiosities and some of the Bay district. Capt. Nichol

son is anxious to make private excursions on the steamer's regular trips and will offer great inducements to this end. The "Hero" is undergoing extensive repairs to boiler, machinery and upper-works, which will be overhauled given to her hull last year will clear her when finished among the first and finest passenger steamers on these waters. With her luxurious furnishings, enviable reputation and genial officers we predict for her success in this new effort to meet the wants of the people.

### NEWSPAPER LAW.

The following is a resume of the laws in force regarding the copying of newspapers:

1 Subscribers who do not give express orders to the contrary are considered as wishing to continue their subscriptions.

2 If subscribers desire to discontinue their periodicals, the publishers must continue to send them until arrears are paid.

3 If publishers send to take their periodicals from the office to which they are directed, they are responsible till they have settled up their bills and ordered them discontinued.

4 If publishers move to other places without informing the publisher, and the papers are sent to their former direction they are held responsible.

5 The courts have decided that refusing to take periodicals from the office, or removing and leaving them there, is "prima facie" evidence of intentional fraud.

6 If subscribers pay in advance, they are bound to give notice at the end of their term if they do not wish to continue. Failing to do so, otherwise the publisher is obliged to send it and the subscriber will be responsible until an express notice is given.

7 All arrears, is sent to the publisher. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscriptions to run along for some time unpaid and then orders them discontinued or orders the postmaster to mark it "Refused" and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

### OBITUARY.

On Tuesday morning, Feb. 28th, Mr. Edward Gracey, a well known citizen of Deseronto, breathed his last, aged 63 years.

Deceased had been suffering a long time from a cancer in the stomach, which ultimately caused his death. Mr. Gracey was born in Hanbridge, County Down, Ireland, and when three years of age came to this country with his parents who settled in Rawdon, Co. Montreal, Quebec. He afterwards moved to Ingersoll, where he was engaged in the grocery business, and to the gravel road, Tyendinaga, where he carried on business. In 1861 he removed to Deseronto and made his home here ever since. For some time he conducted a hotel but subsequently went into the grocery business on St. George street and did a large and profitable business. Some years ago he sold his property on St. George street and had since done business on a less scale in the shop adjoining his residence on Mill street.

The deceased gentleman was an honored and respected member of the Loyal Orange Association and always consistently and zealously maintained the interests of the Order in which he, at different times, held nearly all the various offices. In politics he was a staunch Conservative and rendered valuable services in the interest of his party. In religion he was a member of the Church of England in which he had been brought up from infancy. He was married twice and had six children all by his first wife. Of these two sons and a daughter are left to mourn his loss. During the past five or six months he had been confined to the house by the disease, suffering but little pain, but gradually growing weaker, calmly awaiting his approaching end. For a few days, however, before his death he suffered intense pain, but retained his mental faculties until the last. The funeral took place yesterday and was very respectfully attended, being under the direction of the Orange Order, members of all the district lodges being in attendance. The services were conducted by Rev. G. A. Anderson, M. A., Christ Church, and Rural Dean Stanton, the sermon was preached from Hebrews, 4th chap. 9th verse a text selected by the deceased. At the cemetery the burial services of the Orange ritual was read by Rev. T. M. Jack, District Master, who had been personally requested by the deceased to perform this duty and to whom he had given minute directions concerning all the details as to the manner of the funeral services. The remains were conveyed to Hoffman's cemetery and placed in its vault to be subsequently interred in the cemetery of Christ Church, Tyendinaga.

Mr. John Dalton is making energetic preparations for the approaching summer's trade. In the furniture department he is especially happy, orders coming in already in a most satisfactory manner. He is enlarging his stock so as to give his patrons an unlimited choice. The people of Deseronto and residents of the surrounding district find Dalton's furniture rooms to be one of the institutions of the town, and its energetic proprietor will endeavor to make it even more so in the future.

Equally Times Ahead For Bulgaria's Prince—The Sultan Very Hard up.

Among the gifts to the Prince of Wales, on his silver wedding anniversary, were a box of games containing gold dominoes, the spots marked with precious stones; playing cards of silk, painted by famous artists, and a set of gold and silver chessmen.

I remember that during that afternoon the sky clouded up rapidly, and a bitterly cold snow storm set in from the east. How it must have swept along that desolate shore, driving the snow right into the face

But it was almost dark when he reached the shore. He felt himself growing weaker. His feet began to drag more and more with cold and bewilderment. It was hard, plunging, staggering through the deep snow. Soon he stopped for a moment and leaned up against a tree to rest. Then his knees began to tremble and he felt himself

There were no drifts in the pine woods rough which the lost traveller had wandered, but the snow had filled them deep, everywhere. Little remained on the dark green branches—the wind had swayed them so violently for that.

And now that the strife and fury of the storm had quite passed a great stillness had settled down upon the woods, pervading all its sombre depths. It seemed the silence of finality, of completion. At first the influence of the place was not positively melancholy, only subduing and quieting.

And yet one drearily wondered if the world had ever been any different, or would ever be any different from what it was then. There seemed to be no place for change, no hope for spring, no memory of summer. It was as if the solemn voice of Nature had cried "Hush!" ages ago, and not even a twig had fallen since to break the awful

**The Bengalee**

The political agitation which has sprung up in India is drawing to the side of the British some powerful allies amongst the natives. The Bengalees are the active fomenters of the agitation and the leaders in the demand for a more influential voice in the Government. They are the most intelligent, acute, and industrious of the Indian races, but they belong to the lower castes, are comparatively poor, and have hitherto been without influence and importance by the new education, were regarded as inferior to the warlike Mahomedans, Rajpoots, etc., by whom they are still hated and despised. The Mahomedans are the most numerous of the Indians at Lucknow, Sir Syed Ahmed, one of the most influential Mahomedans in India, has repudiated on behalf of the whole community the charge of inferiority, and has urged on all appointments to native competition. Recognizing the inferiority of his own people in both numbers and education, he pointed out that the only way to escape this was by examination would be to place the most warlike and fiery spirits in India under the heel of the Bengalee Baboo, "who at the thought of his kindred would utter a roar of defiance. There would be no power of the counter-balance." He has since been loudly declared, "where we should see as the flames of justice and authority any faces but those of Bengalees." It is quite natural that the "warrior" of the Indian quick-witted race should have at last aroused the jealousy and indignation of the more masterful tribes, his former conquerors, and that he should be regarded by them as an inferior. But none the less the agitation will go on, and the old-time warriors will have to learn that a new order of things has been established. They will count before bold, and that they had better set the schoolmaster at work if they do not wish to come eventually under the heel of the more powerful low castes they have hitherto despised.

While Russia is making so much stir in Poland, she does not intermit the business of constructing military railroads in Turkestan. She is now running trains across the Karu Daria or Oxus, the great bridge at the mouth of the Oxus, which has been opened for traffic since the beginning of this year. This gives her a continuous railroad route from Mikhalevsk, on the east shore of the Caspian, through Kizil Arvat, Askabad, Herz and Charjui, and soon the road will be extended to the city of Tashkent, and to Tashkent. With the railroad to Baku, in the west side of the Caspian, and the connecting boats on the sea, there is already team communication from St. Petersburg beyond the Oxus. The value of this line for the Russian connection with the Afghan frontier cannot be overestimated.

Trempealeau County is still the banner county of the North West. For the past fifteen days the thermometer has ranged from 10 to 58 degrees below zero. Four mornings at that time the mercury has congealed in the very thermometer in the village, and last Saturday morning at 6 o'clock the spirit thermometer indicated 53 below.

returned from a hunt of big game in Mendocino county, Cal. As Mr. Gannon's right arm is in a sling and Mr. Murray is all done up in sticking-plaster, it is supposed that they found what they were looking for. They intended to hunt about two weeks and slay large numbers of deer, but they

Murray was about used up and Gannon had a broken arm. They crawled over to Kearn's ranch, where their wounds were dressed. The next day some of Kearn's men hunted up the dead panther, and took off a hide that measured six feet three and a half inches from point of nose to tip of tail.

Last year the Czar of all the Russias promulgated an edict, known as the University Statute, for the government of the various universities within his dominions. About 200 of them met in the old university, nearly 5-0 more being outside; but the police interfered and broke in, shutting the outer gate after them and wounding several of the students in the head for trying to prevent them. A detachment of Cossacks in the meantime surrounded the university yard, where they seem to have amused themselves by wantonly lashing the students with the cruel knouts that form the batons of the Russian police.

A deputation of lady students presented an address of encouragement and sympathy. It was read amid cheers and loud applause. At this very moment, however, a detachment of mounted gendarmes came up at a sharp trot, surrounding the crowd on every side, and rushed on the unarmed students, using fists and sabres furiously. Before

joined the policemen and gendarmes were pelted by dvorniks, butcher boys and the like. Resistance became impossible and the fugitives fled in terror. The ground being frozen and slippery many of them stumbled and fell down, and while on the ground were fiercely beaten by the policemen and dvorniks. At the Strastnoj monastery the police managed to cut off the retreat of the fugitives and pin them to the high walls of the monastery and the convent. Many fell exhausted and senseless; two were beaten to death. A great many of the lady students were thrown down and injured. At last some of the fugitives were taken to the private houses, others ran through the streets and were followed and beaten by the infuriated police. Even in remote parts of the city the police were everywhere. One of the student, N., was beaten by two dvorniks in sight of two constables. Mr. N. asked their help, but they would not interfere. He fell down, being hit dvornika by a *gorodok*.

ty to prison. There were many similar incidents. Some men went home with broken fingers, others with broken ribs, wounded etc. Five students were killed. After this day's work students were arrested everywhere—in the streets, in private homes, and at home. Those who were badly injured were mostly taken into custody and stowed in the cells. Some were in order to shut their mouths and prevent the truth from becoming known. Several hundreds were exiled at once. As soon as Professor Sklifovskiy—one of the best operating surgeons in Moscow—heard what had happened, he sent his assistants to the different homes of the injured students, but it was too late. They were all prisoners of the

No doubt many of the unfortunate prisoners have been hurried into exile, possibly into Siberia. No satisfaction, at all events could be obtained by any of their friends or comrades, and it even became dangerous to press the authorities with questions. The tears of Nihilism are of course the motive cause for such deeds of violence; but no tears can palliate such deeds in the eyes of British freemen.

The man in the moon must have had an uncomfortable time of it last the night of the eclipse. According to the *Pittsburgh Dispatch*, Prof. Langley, of the Allegheny Observatory, has been, in the course of a balloon trip in the instrument called a bolometer, to measure the temperature of our satellite; and has found that in winter it is in the neighbourhood of 200 degrees below zero. He also found that during a total eclipse the temperature of the moon rapidly falls as the earth's shadow passes over it, the sun's rays being absorbed and the moon is left unprotected to prevent radiation. The gentleman who dwells in the moon, therefore, must have experienced a cold wave on that day, and probably a cold wave in terms the reverse of complimentary.

**A Unique Election.**

A unique election recently occurred in a small community in Germany. The vote was taken to decide who was the "best man" in the community. Only one man, a shoemaker, was voted, and as he voted for himself, he was declared to be unanimously elected to the position of best man in the municipality.

The amendment to the game law fixes the close season for deer, elk, moose, reindeer or caribou, from 1st December to 31st October; that no hunt or dog which pursues deer shall be allowed to run in a locality where deer are usually found, between 1st and 15th November, under a penalty of not less than \$5 or more than \$25; and that every person desiring to hunt deer shall take out a special license for the season from the inspector for the district and shall pay, in addition to license fee, the sum of \$1 for every deer taken or killed, being required to make oath as to the number at the end of the season.

A great quantity of lumber has been cut on the Bogart farm in Fredericksburg this year. The Rathbun Company who own the place have had a considerable force of men cutting stuff over there all winter, and a number of teams have been engaged hauled to Deseronto. The other day Mr. Thos. Pigen and his men cut down a large poplar tree, which was found to be quite sound. The principal piece cut from it measured 50 ft. in length, 24 inches at top and 36 in. in diameter at the butt. A fine 15 foot log was also cut from it, and a cord and a half of good firewood. The shipyard took the large piece valued at about \$25. Who would have thought that such a fine monarch of the forest could at this late date have been found within two miles of the remorseless saws of the Big Mill!

Mr. R. H. Baker continues to purchase large quantities of barley which comes in quite readily. It is observable that it is being brought to Deseronto from an ever enlarging radius of country, much coming from the neighborhood of Port Hope, a large quantity from Fredericksburg, a section which was not formerly tributary to Deseronto. In former years the rush was over after the first month or two, but now that farmers have discovered that at all periods of the winter they can find ready sale for their grain, they appreciate the situation and are making Deseronto their chief market. There is no doubt much is due to the fact that Mr. Baker is a popular buyer, but a great deal is owing to the favourable position of Deseronto, and to the fact that farmers can purchase lumber, coal and other supplies and carry them home on their return trip.

The new Chalmers church, Kingston, will cost \$25,000.

Mr. Samuel Wilson, of the Southern Belle, has accepted the position of chief engineer of the Chicago.

The Tribune office is head quarters for books, stationery, scribbling books, and everything in the school book line.

Mr. Thos. Culhane, of the Big Store office, had his fingers severely crushed the other day by a window sash falling upon his hand. No glass broken.

Mr. E. W. Rathbun was in Kingston on Monday, and while there was interviewed by several leading business men in reference to the proposed extension of the N. & T. Q. Ry to Tweed.

The wide awake business man is now taking time by the forelock and inserting his advertisement in the local paper so as to ensure his share of the spring trade from the very outset of the season.

Spring, Beautiful Spring, the Crow will soon begin to sing. Bran and Cracked feed is a good food for cattle, but Eggar is selling all conditions feeders that will improve the Black Staff can produce in the Flour Mill.

Mr. George Eyel, of the Hansard staff and an old parliamentary reporter, died in Toronto on Monday. While in a state of unconsciousness his hands were frozen and although his fingers were amputated blood poisoning set in and death ensued.

Another member is to be added to Mr. Mowat's cabinet, which will then have seven portfolios. The great state of New York has a million people content with five. There are fourteen members of the Dominion cabinet. The United States with sixty million people plot along very well with a cabinet of seven. Canada is governed, but the politicians cannot see matters in that light.

Local business men, who find it impossible to collect accounts due, can console themselves with the thought that outsiders can almost invariably get their little bills paid. Some book agents recently struck town and got over a hundred subscribers to their subscription list at three dollars per head. Their collector called around the other day and at all the notice collected, and these small amounts being in nearly every case cheerfully and promptly paid.

From the annual report of the Militia Department we learn that in 1887-88 the total expenditure of the department was \$1,281,255, of which the sum of \$27,386 only was spent for drill pay and camp purposes, the balance being spent on staff, material, military college, and schools. The active militia force on paper consists of 37,969 men, of whom 20,253 performed annual drill.

The general commanding reports the greater proportion of the corps as inefficient and he urges re-organization.

New Comer in his state of semi starvation gets utterance to some things which should stir up our bakers and grocers to better things. We have had our attention frequently directed by many residents to this very thing. It is too much the habit of the people of this district to adhere to old customs and habits. This want do to old things. There is no reason why our business men should offer their customers a wide range of choice. New Comer's letter may lead to a very desirable change.

It is astonishing to observe how few people understand the common rules of measurement in purchasing wearing apparel. For instance, a man will buy a coat that is a "size" too small or too large. A "size" smaller or a "size" larger will not probably mean, but he does not know what a "size" is. Well, a "size" in a coat is an inch, a size in a shirt, a collar, one-half inch; in a shirt, one-half inch; in shoes, one-sixteenth of an inch; pants, one inch; gloves, one-eighth of an inch, and in hats, one-eighth of an inch.

At 9:05 o'clock Tuesday morning, Robert Neil, the murderer of Guard John Rutledge at the Central Prison, Toronto, on January 13th, forfeited his life on the gallows in the jail yard. The doomed man spent the night reading his bible and repeating hymns to himself, in a subdued tone of voice, until a quarter to two o'clock. He paced his cell a while, and then would rest a few minutes, sitting on his bed, but he was too restless to contain, then and again he would get up, and so kept up until the time named. Then he laid himself upon his bed, and slept soundly until a quarter to 7 o'clock. At that hour he rose, and he had his breakfast brought to him, but he was unable to eat it and it was taken away. At 7:05 o'clock ex-Mayor Howland and Mr. William Goodenham were admitted to Neil's cell and spent their time preparing him for his rapidly approaching doom. At 8:56 a. m. the procession left the cell and nine minutes later Neil was in eternity.

The case Scott v. Benedict et al, came up again for hearing before Judge Street at Toronto on Friday last. This famous case, which effects the title to the ownership of the Scott timber limits, has been in the courts for many years. Coming down to recent years it may be said that in 1880 the plaintiff instituted an action against J. Benedict & Son in which he sought priority over the mortgage claim upon the Scott limits for a certain vendor's certain vendor's claim established against W. A. Scott, the former owner of the lands. Failing in this action he sought to obtain an injunction from the court to restrain the Rathbun Company from cutting on the limits. The sum found to be due to Benedict & Son on the mortgage securities was \$208,000, which with interest now amounts to \$254,000. In the defence it was shown that the Rathbun Company had spent some \$15,000 on the limits, that the plaintiff is of no means and no substantial prospect of redeeming, and that in any event his claim could not be prejudiced by the cutting of the limits. Judge Street ruled in favor of the defendant, refusing to grant an injunction. The Rathbun Company will, therefore, continue to cut on the Scott limits, keeping an account of the quantities cut, without any prejudice to their rights. The costs of the motion were reserved to be disposed of at the trial of the action. The decision was heard with great satisfaction by all classes in Deseronto.

Rev. Ralph Dean Stanton was so far recovered from his recent illness as to be able to take his seat in St. Mark's on Sunday last. Services will be held every Wednesday and Friday evening at 7:30 in St. Mark's during Lent.

Although the news was not unexpected there were general expressions of genuine regret at the receipt of the intelligence of the death of Mr. Alexander Robertson, M. P. for West Toronto. He had been in ill health for several years and was confined to his home a few weeks ago, and ten days ago a change for the worse set in from which he never recovered.

He was born in Scotland, was a son of the late Wm. Robertson, lumberman, and was born in Trent, Dec. 5th, 1838. Seven years after he went to Belleville where he has since resided, and where he was educated, and studied and practised law as a profession. After serving for some time in the city council he was elected Mayor in 1871 and afterwards in 1878. In 1879 he was elected to the Legislative Assembly and being unopposed was again elected the following year. In 1882 he returned to the assembly and contested the West Riding for the Commons. He was successful and was elected by a large majority. At the last election he was again returned to the Commons. He was vice-consul at Belleville for the Hawaiian Kingdom, and a prominent member of St. Andrew's, the Masonic, and other societies. In religion he was a Presbyterian; a member of St. Andrew's Church. He was married to the eldest daughter of the late Dr. Stewart, who died a few days ago. She died in 1874 leaving one child by whom he is survived. The funeral will take place on Saturday at 2 p. m.

### WEDDING BELLS.

Mr. Wm. Anderson, son of Wm. Anderson, Esq., ex-M. P. for Prince Edward County, was united in marriage on the 25th, to Miss Anna M., fourth daughter of John White, Esq., ex-M. P. The ceremony was performed at the residence of the bride's father, Robin, by the Rev. D. Kelso. The groom was assisted by Mr. John Nightingale, the bride by Miss Libbie Anderson, sister to the groom. Only the immediate relatives of the families interested were present. Dinner was served, after which the young couple started for the west to spend the honeymoon, with hearty good wishes for prosperity and happiness. The bride was remembered by a great number of friends.

The bride and groom are widely known in their respective localities, and are justly popular. Their home will be in Ameliaburg, Indiana.

### GARD.

The undersigned desires to thank the people of Deseronto and surrounding country for the liberal patronage so generously extended to him in the past. He desires also to inform them that he is now busy making ample preparations for the enlarged business which the steady growth and prosperity of Deseronto warrants him to confidently expect during the coming season. To that end he is now manufacturing and importing a large stock of Furniture suitable to afford an unlimited choice to all his patrons. The careful and economical manner in which he conducts his business enables him to give the public the benefit of low prices and a good article. His premises have been enlarged and it will be his constant aim to promptly fill all orders in upholstery, furnishings, &c., with which he may be favoured.

JOHN DALTON.

"Mechanic" puts a very pertinent question to our School Board. Other things being equal our local manufacturers should be given the preference for all articles required for school or other municipal purposes.

Mr. George Field, president of the Mechanics' Institute and one of the best mechanics of Deseronto, left yesterday for a visit of a few weeks to his parents in Great Barrington, Gloucestershire, England. We wish him a safe and pleasant voyage.

### Dress Goods.

There seems already to be quite a stir in the Dress Goods Department. The new suitings and dress goods with Buttons, Trimmings, &c. to match are very much admired.

Our Spring Tweed Suitings for fashionable Tailor made Costumes are especially attractive. We can't tell you about all the new things. The materials are so varied and the attraction they must be seen to be appreciated. Remember that is one of our leading departments.

### Prints.

Ladies are inquiring every day about Prints. We wish to state that our new prints are nearly all to hand. There is only one more shipment which we expect the first of next week. If you want prints our stock is so large, the patterns so new and numerous and the prices so low that you will scarcely fail to find something to suit you. We commence them at 5c per yard.

### Cottons.

We think we hear you say "why do you tell us about Cottons every week?" The reason is because we are favorably impressed with our values in this line and if our impressions are correct it will certainly be to your advantage to buy from us. Manufacturers are such cunning fellows and manufacture so many different qualities so many different widths, and have such a variety of prices that you cannot be too careful in making your purchases. Our cottons without a single exception are not less than 1 yd. wide. We have the makes of all the principal mills of the Dominion so that you may compare the merits of each. The prices range from 4c per yd. up.

Shirtings, Ducks & Cottonades.

Our new stock outshines anything ever shown in these lines before. We have some new makes which are extra value and will be found very desirable goods. It will not be necessary to quote you prices because we can tell you the prices to better advantage when you are examining the goods.

Millinery.

In our new, well lighted and spacious rooms on the first floor this department should be more popular than ever before during the coming season. The heads of the department are in Montreal and Toronto selecting new goods and preparing for the spring trade.

## SPECIAL LINES.

We always have some specially attractive lines of goods that are not to be had elsewhere at the prices.

### LINE NO. 1.

which we have just opened is a lot of Bleached and Cream Table Linens, hand loom woven goods, without dressing, at very low prices. If you want a good wearing Table Linen always buy the Cream, loom finish.

### LOT NO. 2

Is a grand lot of nearly 3,000 yards of Print, to be sold at 10 cents, same as usually sold at 12½ cents.

### LOT NO. 3

Is a lot of Ladies' and Children's Cotton Hosiery, black and colored, at prices never before heard of, from 5 cents a pair.

### LOT NO. 4

Is a big quantity of Shirts, Gingham, etc., at lower prices than elsewhere.

### LOT NO. 5

Is a lot of Hickory Cottonades, the best wearing goods in the market, at 5 cts a yard less than regular prices.

### LOT NO. 6

Is a lot of Grey and White Cottons, at less prices for quality than can be had elsewhere.

We make these statements because we know these goods were bought out of the usual way, and much less than regular prices, and that these bargains were confined to ourselves in this section.

A lot of new Tweeds are now out, and they are splendid value. We have opened out our new Embroideries in narrow widths, and medium width, as well as Allovers, Flouncing and Skirting widths, and in both Swiss and Cambric muslins.

Our new Scrims for Curtains are now in, as well as Laces to match them.

Our new Oriental Laces are in.

Our new Tweeds, Linens and Towels are in.

We pride ourselves on the fact that our importations will excel and surpass in point of variety, quality and value anything ever shown here.

Still a few winter goods to be sold cheap.

## BUY IN THE CHEAPEST MARKET.

To the Editor of The Tribune.

DEAR SIR:—I quite agree with "Mechanic" in the view he has taken of the School Board, provided all is done which he has stated, but it is not. In the first place we invited tenders. The tender of the Rathbun Company was \$106 thirty cents, to be delivered in the school room in or about three weeks. The Preston tender for 30 desks to be delivered at Deseronto Junction was \$99.82; from Junction to school room freight and carting cost 75 cts., therefore saving \$4.43. Now, Sir, if Mechanic will agree with me in saying that the School Board have done their duty, for we have got a seat which is two sizes larger than the Rathbun Company tender and I am sure worth 75 cts. each more.

R. GEDDIS.

## BAKERS AND GROCERS.

To the Editor of The Tribune.

DEAR SIR:—Last week's issue of THE TRIBUNE contained an article concerning bakers and grocers. In reply I must say it is a pity that "New Comer" failed to find any penny-buns in town. I admit it is hard to get a satisfactory five cent meal without penny buns, or cartwheels as they are called. I think the writer is a little bold in his statements concerning bread. I will venture to say that there is as good bread baked in Deseronto as in any neighboring town or city. As for many buns I defy the face of a man to say that one baker in this town ever sold, or offered for sale, buns over five hours old. If the writer's cook or wife, as the case may be, should buy buns and not bring them on the table until they are musty, is the baker to be blamed? As for cakes, pies, pastry and fancies this town does not want any such shops. The young ladies are quite capable to do such work and we are proud of them for it. The man that starts in this town to make a cake or a pie, or a bun, or a pastry won't live long. There are already two shops in town where any kind of cakes or pastry may be obtained by leaving your order. Hoping that "New Comer" may be satisfied to leave his order for his cart wheel buns and as Lent is in full bloom salt meat and fish is just what suits the taste.

## APOLGETIC.

During the agitation of the license by law question a letter signed "A Widow" appeared in the columns of THE TRIBUNE. Mr. James Cameron considered himself the person against whom its statements were directed and felt that it had done injury to his business and reputation. With the consent of the trustees of the name of the writer of the letter has been given to Mr. Cameron. It is quite unnecessary to say that we regret that any communication which may have appeared in the columns of THE TRIBUNE should directly or indirectly have wrought any injury to Mr. Cameron. He heard it stated that Mr. Cameron intended to take vigorous legal proceedings against the author of the letter, but we feel confident that in the interest of peace and good will he will permit matters to rest.

## LOCAL ITEMS.

We prepared for a great boom in estate this summer.

The Orange Lodge for Ontario East has been in session this week at Fort Hope.

The song service in the Methodist Church last Sunday evening attracted a large congregation.

Mr. George Clary, M. P. for Mississauga, died at Ottawa last Sunday night from Bright's disease of the kidneys.

Hon. Joseph Chamberlain crosses the Atlantic in the same steamer with Mr. George Field of this place.

Mr. W. H. Higgar has been chosen Reform candidate for West Hastings. The Conservative candidate will be chosen next Tuesday.

Mrs. Hillman, Miss Hewson, Miss Burdett, three favorite vocalists, will take part at the Sacred Concert next Thursday evening.

SINGING.—Mrs. Hillman will hold her first singing class in S. Mark's Church next Tuesday evening at 8 o'clock. Terms \$1.50 per quarter payable in advance.

The old evil of shop locking is again lifting its head in our midst. Many of the business men are losing customers by allowing a lot of loafers to lean around their counters.

Mr. Robert Dodds and a gang of men from Kingston have arrived in town and are busy overhauling and repairing the boats of the different steamers of the Deseronto Navigation Company.

Messrs. Crowsley and Dewey have held very successful evangelistic meetings at Belleville. As a result of their labours one hundred and fifty persons have been converted. Walkerton is their next field of labour.

While opposed to any property qualification for electors, we nevertheless think that Mr. Mowat's bill might be improved by the addition of a clause making it necessary for the elector to show a paid up receipt for the local paper before his vote could be recorded.

Several farmers have been asking us of late if there is any prospect of a good agricultural implement emporium being established in Deseronto. The repairing season is at hand and tools and supplies of all kinds will be required.

It is said that much of the meat offered on the market last Saturday was miserable in quality and that some was so spoiled as to be positively dangerous to eat. It might be well for the corporation to appoint an inspector to look after this matter.

Win. Donaldson and his gang of men made remarkable quick time in cutting a day's billow. As a result of their labours one hundred and fifty persons have been converted. Walkerton is their next field of labour.

in order to get as much information as possible out of the movements of an isolated aneroid, its indications should be watched in conjunction with the readings of a thermometer in the shade, and very careful attention should also be given to the direction of the wind and the position of the sun. There is a little poem which conveys an important rule with respect to the change of wind-direction, and the truth of which is well known to every sailor. ("When the wind shifts against the sun, 'Tis not for lack it will run," says the wind in the northern hemisphere usually shifts with watch hands, and a change in direction is called veering. A change the opposite way is called backing, and indicates that a storm is approaching.

In the House of Commons Tuesday a motion by Mr. Mills to the effect that it was the duty of the Government to introduce a bill amending the Scott Act, was voted down by 109 to 57.

## MASONIC CONVERSATION.

The conversation held in the Masonic Hall on the evening of Friday, 2nd inst., under the auspices of the officers of Craig Lodge, A. F. & A. M., proved a very enjoyable and successful one. The responses to the invitations issued were general and as a result the attendance was large and representative. The officers and members of the Lodge wore badges and manifested an earnest desire to make their visitors feel at home within the precincts of the lodge room—a place which to the uninitiated is connected with mystic ritual and solemn ceremonies. As for the lodge-room it presented a very pleasing and inviting appearance. There were abundant evidences that much time and skill had been expended in the work of decoration and the committee to whom this task had been assigned must certainly be accorded great credit for their successful endeavors, the arrangements being all very tastefully executed, and eliciting from the assembled guests general expressions of admiration. The seats had been arranged with a view to dispel that distance and reserve so unfortunately characteristic of Deseronto audiences. At the proper hour Rev. H. J. Craig, Master of the Lodge, called the meeting to order and in a neat speech welcomed the visitors and gave them some information concerning the objects and principles of masonry, and then duly installed Mr. W. D. McKee as master of ceremonies for the evening. That gentleman immediately proceeded to levy regulations of songs, readings, music, &c., from members of the audience. Instrumental selections were contributed by Mrs. Craig, Mrs. Hillman, Miss Millie Anderson and Miss Miller. Vocal solos were well rendered by Mrs. Hillman, Mrs. Campbell, Miss Millie Anderson, and Mr. H. Aylsworth. Mr. Bedford, Principal Cole, and Mr. Brice contributed capital readings, and Rev. A. Campbell, and Messrs. Aylsworth and Russell addressed addresses. During a termination of the evening cake, coffee and fruit were served and enthusiastically discussed. The singing of "Auld Lang Syne" brought this interesting social event to a close.

"Admiral Denik" would wish to impress on the local correspondents of the *Tribune* that Admirals, like nearly all distinguished persons are very modest and do not seek any prizes for their honors or fame through the correspondence columns of the local press. They may not object to an occasional passing notice any more than other mortals, but they do object to being made the subject of a newspaper controversy which they have no voice, or being made responsible for statements that are not authorized. The suggestion is offered that when all is said on any subject that is worth saying it would be better to let it drop and take up something else. When there is a dearth of news a dissertation on "Natural History" or even now and then a lively imagination or furnishing news that has long become old.

There are now 5,454 school houses in the Province, of which 5,437 were in 1886, and 17 were added in 1887. In rural districts, 297 in towns, and 170 in cities. The log schoolhouse is fast disappearing, there being only 607 in 1886. There are 1,976 brick schoolhouses. The expenditure on apparatus and prizes in the last seven years amounted to \$217,514, and the expenditure on school buildings, to 179,029.

## A LETTER FROM QUEBEC.

(Translated from the French.)

GENTLEMEN,—I have deferred writing the letter to testify to the benefits derived from the use of your *SIMON'S LINIMENT*. It has done wonders among all the people who have used it about here.  
I can certify that in every case where I have used it upon myself I have been very well satisfied.  
Mr. N. Mooney, of St. Sylvester, had a bad leg which was said to be incurable. I told him to use Simon's Liniment, and it has effected a complete cure in a very short time. His neighbor, Mr. John Delvin, having received a serious cut on his leg, Mr. Mooney took him the Liniment, and having used it, found himself completely cured.  
I have been assured of the cures of these people, and the Liniment having become known, it has created quite a demand, people coming as far as 35 miles to procure it for themselves.  
Mr. Wm. Bennett, of St. Ferdinand, had had it some time for himself, and he has since bought it for his friends, who suffer from Rheumatism, and they have all been well satisfied.  
I have never known any medicine to have had such good results about here as Simon's Liniment.  
I am, yours truly,  
DAMASC PAGEOT, Merchant.

## Selling off at Drewry's

New bargains opening up every day. Always buying but never at regular prices. We always get the drop in the price or we don't buy. You know, without us telling you, that times are hard, consequently sales with the wholesale men, are slow, and they are anxious to make sale—to get cash—many are forced to sell to get cash—and so it is a great opportunity for us to buy cheap. We buy cheap and that enables us to sell cheap. And so every day almost we are buying. First one line then another—any line so long as we get the drop in the price. This week it is

### DISTRICT ITEMS.

Cobourg has the measles.  
The Salvation Army stirred Wapoose last week.  
Successful revival meetings have been in progress at Northport.  
About 13,000 tons of coal have been used in Belleville this winter.  
The Prescott papers are both reported to be in financial difficulties.  
Mr. Clarke's election for East Northumberland will be protested.  
Smith's Falls is illuminated by 160 incandescent electric lights.  
W. Booth, Kildare, has been fined \$50 for an infraction of the Sord Act.  
Telephone offices have been established at Lansdowne and Mallorytown.  
The bakers of Belleville have raised the price of bread to five cents last week.  
Women may be seen cutting cordwood along the line of the K. & P. Ry.  
The shop of Mr. Van Vlack, Picton, was gutted by fire one day last week.  
About fifty people indulged in a fight on the streets of Perth a few days since.  
There is some hope of a speedy settlement of the Trenton water power difficulty.  
The Wager iron mines near Tamworth are now attracting the attention of capitalists.  
A district assembly of Knights of Labor will be formed with head quarters at Belleville.  
Constable Fidgeon, of Peterborough, has secured to parts unknown leaving his creditors to mourn their loss.  
Three hundred men in Skinner & Co. factory, Gananoque, went out on strike last Monday morning.  
Madoc Lodge, I. O. O. F., are making arrangements for a monster demonstration on the 28th of April.  
A fine hall in Cobourg was destroyed by fire on Sunday morning, and two young men have been arrested as the incendiaries.  
Thieves stole fifteen dollars of hurch money from the residence of Mr. Elliot, Portsmouth.  
The Rathbun Company have been making heavy shipments of lumber from their mill at Kossmore.  
Mrs. George Dennison sustained severe injuries by a kick from a horse whose foot struck her face.  
The Quinte Exhibition and the Belleville Horticultural Society will give a joint fair next September.  
Mr. Frederic Rous, one of the best known and respected merchants of Belleville, died on Monday last.  
Rev. Mr. Mackie, of St. Andrew's Church, Kingston, has resigned his charge and will return to Scotland.  
Picton boasts of a stalk of rhabar 32 inches in length which has been grown in a cellar this winter.  
Messrs Crosley and Hunter, the celebrated revivalists, commenced their labours in Belleville last Sunday.  
W. J. Osborne, teacher, Kossmore, has accepted the position of manager of the Belleville milk company.  
F. H. Hubbard, Napanee, has been promoted to Picton to take charge of the office of the Rathbun Company.  
John McCann cut his foot while chopping cedar near Mud Lake and had a narrow escape from bleeding to death.  
The new post office at Peterboro has been completed at a cost of \$30,000.  
Belleville's imports decreased \$4,290 and exports \$27,361 during the month of February over same month last year.  
Ebenzer Fretts, a supposed successful farmer of North Fredericksburg, has assigned. Liabilities \$6,000; assets \$1,000.  
A number of these factories will be shortly started in Duncannon, Faraday and other back townships of North Hastings.  
It is said that a big summer hotel will be erected on Rideau lake if United States capitalists will furnish the capital.  
Kingston are said to don male attire in the evenings and thus parade the streets.  
Kingston will vote on a by-law granting \$100,000 to extend and improve the water-works system, on Monday, April 2nd.

There was great rejoicing at Westport on the entrance of the Brockville and Westport railway cars into that village.  
A very large quantity of peas will be sown this year in the vicinity of Deserontoville. Farmers find peas the best paying crop.  
The Dominion estimates provide \$75,000 for the Murray canal and \$88,000 for work on the Trent River navigation between Lakefield and Balsam Lake.  
A woman travelling from Muskoka to visit her dying mother at Ottawa, was robbed on the train of her small store of money and ticket when near Peterborough.  
Two people are proud of Lake Stoco and other beautiful surroundings, but they are dissatisfied because without incorporation the place only remains a hamlet.  
A Haldimand farmer worked all day Sunday recently having lost the run of the days of the week. He is one of those farmers who do not subscribe for the local newspapers.  
A fire which broke out in the Lake View hotel, Roblin's Mills, on Tuesday morning, did much damage destroying the hotel stables, and the premises of J. G. Johnson and Geo. Redner.  
Bancroft and North Hastings generally are crying out for railway communication and subsidies from the Dominion government. We trust their cries will be heeded by the government of the day.  
It is proposed to lower the water at Kingston Mills to a level with the Rideau canal thus reclaiming 5,000 acres of excellent land drowned fifty years ago by the construction of the canal.  
Times have been very dull at Glenora during the past winter, very little doing at the mill.  
Many residents have left the hamlet. Glenora's loss is Deseronto's gain.  
James Neville, Napanee, was injured in a Sierra Nevada mine, and while on his way home was in two railway collisions, but escaped being hurt notwithstanding that he was swinging in a hammock. Recently he lost three children by diphtheria, and his wife has been sick ever since.  
The barns of Mr. John B. Cowan, Front road, two miles north of Gananoque, have been destroyed by fire, which it is supposed, was started by two tramps who were noticed hanging around the premises. Twelve cows, three colts, nine sheep, and a lot of fowls perished. All his implements, waggons, robes, etc., also hay, grain and straw were consumed. Loss \$900, with insurance on the building and a small insurance on the stock.

### A Summary of its Provisions.

*Article 2*—The Commission shall consist of two commissioners, to be named by her Britannic Majesty, and of two commissioners to be named by the President of the United States, without delay after the exchange of ratifications of this treaty. The Commission shall meet and complete the delimitation as soon as possible thereafter.

**Article 4**—Mentions certain bays on the coast of the Maritime Provinces and Newfoundland from which measurement shall be made.

**Article 6**—The commissioners shall from time to time report to each of the high contracting parties such lines as they may have agreed upon, numbered, described and marked as herein provided, with quadruplicate charts thereof, which lines so reported shall forthwith from time to time be simultaneously proclaimed by the high contracting parties and be binding after two months from such proclamation.

**Article 8.**—Each of the high contracting parties shall pay its own commissioners and officers. All other expenses jointly incurred in connection with the performance of the work, including compensation to the empire, shall be paid by the high contracting parties in equal moieties.

**Article 10**—United States fishing vessels entering the bays or harbors referred to in article 1 of this treaty shall conform to the other regulations common to them or to the

Article 15.—Whenever the United States shall remove the duty from fish oil, whale oil, and all other kinds of all fish oils (except fish preserved in oil) being the produce of fisheries carried on by the fishermen of Canada and Newfoundland, including Labrador, the fishermen of the United States, upon such removal of duties, shall be entitled to the same privilege of entering the ports, bays and harbors of the aforesaid countries of Canada and Newfoundland shall be accorded to the fishermen of the United States, free of charge, for the following purpose, namely :

**Article 16.**—This treaty shall be ratified by the President of the United States by and with the advice and consent of the Senate, and by Her Britannic Majesty, having received the assent of the Parliament of Canada and of the Legislature of Newfoundland, and the ratifications shall be exchanged at Washington as soon as possible. Done in duplicate at Washington this fifteenth day of February, in the year of our Lord one thousand eight hundred and thirty-eight.

John Tintoretto is an Italian lemon pedler Cincinnati, who has the proud record of having eaten twelve dried apple pies at one sitting.

Harry Flaxman, a very skillful and rapid tter of Providence, recently attempted to take an entire tea set of forty-four pieces in seven and a half minutes. Many spectators watched him. First he turned out twelve cups and saucers; then a dozen plates; then four large plates; and then a

st winter when there entered a lady of perhaps 30, handsomely dressed, and carrying a well-coddled pug. Both sides of the car were filled and not a man made a move. Presently the lady said in a haughty tone: "Is there no gentleman on this line who will give the wife of the mayor of Cambridge seat?" There were some smiles, but no offered seats. "Stop this car!" cried the woman in tragic tones. The conductor eyed and the wife of the mayor stalked out.

A novel feature was introduced at President Carnot's last ball. It is called a new figure," though it is rather a species of game—a contest of agility, in fact, between the male dancers, who alone take part in it, the prize being a waltz with the lady who gives the signal for it. This she does by launching a toy balloon in the air, and the salutatory competition which it provokes among the young men in their frantic efforts to reach the miniature acrostat and secure the prize is said to be extremely diverting.

## NOTES

Useful books and periodicals for these long evenings and leisure days.

Kalamazoo, Mich., has 2,000 acres devoted to the cultivation of celery, with a stated average profit of \$400 an acre.

The Hubbard is one of the best winter squashes, for both table and stock, if kept in place where the temperature is even.

No horse should be allowed to take a large draught of water for an hour after eating, in fact he will not do so if he be allowed to drink what he wants before eating.

The improved mutton breeds of sheep cannot be kept in the manner usual with common sheep. They demand good pasture, liberal feeding and attention, but they pay well for the care bestowed. There is a great demand for superior mutton.

The problem of farming consists in making the soil fertile. Manure is the farmer's savings bank, and if more of them would save large heaps of it every spring to spread upon their lands instead of money at interest, they would prosper better in the end.

Geese do not receive as much attention as they should on farms especially adapted to the rearing of water fowl. Besides yielding a regular income in the way of feathers, they are one of the most profitable fowls for the market. Much easier reared than turkeys, they sell as readily in most seasons at good profits.

A patent has been granted to a resident of Madison, Indiana, for the manufacture of maple sugar by mixing an extract of hickory with ordinary sirup, such as cane-sugar or corn-sirup. The inventor says that he has discovered that the hickory tree will yield the precise flavor of maple sugar; and he claims he has sought the indorsement of the Government for perpetrating a fraud on the public.

last year Charles Fogle, a farmer living near Westminster, Md., bought 25 bushels of wheat from a speculative company at \$10 a bushel, giving his note for \$250. In return they promised to sell for him, when the crop was gathered, 50 bushels at the same price. A bond was given to this effect; but, of course, the "company" failed to come to time. The other day two men

Still they come. In these days inventions crowd one another's heels so fast that one has barely time to call "behold me!" when another is clamoring for attention. The telegraphic typewriter is a combination of ordinary typewriter and telegraph instrument, by means of which an operator by pressing the keys of a typewriter at one end of a telegraph wire may produce a typewritten copy at the other. The transmitting machine makes a copy of the message. Those who have control of this invention hope to supersede with it the mercantile confidence the use of the telephone. Its message is said to be absolutely secret, the operator can cut off from the circuit all the instruments except the one he wants. Nag-

I advise those who have warm comfortable sleeping rooms to refrain from making winter visits unless sure of similar accommodations; and I also advise those who have no way of heating the "spare room" to refrain from inviting company during the winter season. There can be no more chilling hospitality (?) than putting a guest into a cold room to sleep. An idea used to prevail (I am thankful that it was before my day) that a warm sleeping room was productive of ill health.

The importance of sufficient daily exercise to the health of intellectual men cannot be exaggerated. The same may be said also of adequate and regular repose, as few causes are more potent, in shattering the nervous energies, weakening the constitution, and hastening on the infirmities of old age, than deficient and irregular sleep. For those devoted to intellectual employment, frequent

The axe and block for human execution passed away with the introduction of the gallows, and now the gallows bids fair to give place to the electrical chair. A commission appointed by the New York legislature to enquire into the best means of inflicting capital punishment, has reported in

The London School Board has concluded that in the administration of corporal punishment teachers should not strike their pupils about the head or face. This is a wise decision. Very serious results flow from the old-fashioned "boxing of the ears." One professional man declares that fully fifty per cent. of the cases of deafness come from that form of castigation. It is interesting to note, in this connection, that Montreal employers of juvenile talent are too careful of the little ones to strike them on

keeps passion flower, antigonon, cobsa and other vines a little moist at the root, but, by keeping them cool, as inactive as possible, such back up growths they make now. Mr. E. M. Allan, who grow some of the best chrysanthemums ever shown at the exhibitions of the New York Horticultural Society, had no greenhouse, but wintered his plants on his cellar floor, kept them lightly moist, but as cool as he did his potatoes all winter long, and brought them out divided and replanted them outside in April and May.

English ivy, camellias, myrtles, pittosporums, Japanese privet, English holly, sweeta, Spanish laurel, laurustinus, tender rhododendrons, araucarias, and all other evergreens of that type, which can be wintered very well in cool, airy, tight cellars, should never be allowed to get dry at the root; indeed they like plenty of moisture. It is the same with out-door evergreens. Evergreens always are more winter-hur-

There is nothing gained by allowing dahlia tubers to sprout into growth before April 1. Therefore keep them inactive and nip back any growths that may appear before that time. Cut out all decaying parts of the tubers and rub the wounds over with powdered charcoal or dry dust.

Caladium esculentum and tube-roses like warm self in the cellar. Now is a good time to "fix" your tuberous; separate the little from the medium-sized, and these again from the large flowering bulbs and have all in readiness for planting time next May. Keep gladioluses in moderately cool quarters. If warm, they start to grow before planting out time and thus become considerably misshapen. Pot a few of the rionet tubers marked.

Don't have any dry bulbs stored in your cellar, but don't let them get dry and shriveled. Plant them either in pots or flats filled with sand, soil, and in order to prevent their growing them in a cool part of the cellar, but away from frost. The main object is to keep the bulbs plump and fresh.

Cactuses, especially opuntias, want looking to. Cut out clean every bit of decayed tissue, and find about them. Then buy

Scarlet geraniums that have been wintered in the cellar will now begin to "break." Put them back to sound wood and healthy leaves and promote them to warm, light quarters. If you are short of stock, bring them upstairs to a warm window and give a little water, and they will soon push forth new growths from which you can secure good cuttings in March. And if you don't

Owing to the less favourable symptoms of the Crown Prince, Dr. Mackenzie has decided on his departure from San Remo. The Queen is very anxious about the Crown Prince's illness, whose nervous system, owing to the continued strain of the last few months, is getting seriously out of order. A prominent day book man from the Central Office was seen last Sunday driving along Prince Street, Belleville, with six young ladies in a cutter. Leap year has no terrors for him.

The meetings of the Salvation Army continue to be very largely attended. This evening there will be a grand rally, several distinguished gentlemen being present.

Mr. Andrew Knapp will during the coming season take charge of the Big Mill engine, Mr. Isaac Scribner being his assistant.

Mr. Wm. Martin will take charge of the engine in the Terra Cotta works, with John Payne as assistant.

March winds are already giving young ladies a terra cotta complexion. Far better that this should be so than that they should go around the streets with veils so heavy as to prevent young men from recognizing their best girls.

The great crop of last year and the certainty of the disallowance policy of the present government being discontinued are likely to cause a rush of immigration into the great northwest.

Over fifty good farmers of Frontenac have the winter's crop of wheat and corn in the ground in a few weeks. It has been proved that in a few years the western farmer gets more for his crop than he would in a life time in the old or provinces.

A branch of the Women's Christian Temperance Union has been organized in Deseronto, with the following officers:—Mrs. W. H. Aylsworth, President; Wives of Resident Clergymen, Vice-Presidents; Miss Porter, Cor. Secy; Miss Deans, Rec. Secy; Mrs. C. E. French, Treas.

The next meeting will be held on the evening of Thursday, 15th inst., at 4 p. m. All ladies are invited to attend.

We direct attention to the announcements contained in the advertisement of the Messrs. Kerr & Wims, McCullough's Hotel.

This house is one of the most popular in the district, the young men of the firm having by their courteous and business propensities made themselves favorites. In gentlemen's furnishings and other departments they exhibit this spring a splendid line of goods at prices which leave nothing to be desired.

Councillor Cameron is making extensive alterations and additions to his premises with a view to changing in his business. The front portion of the hall will be reconstructed to a store and to this Mr. Cameron will transfer his present business. An addition is being made to his present residence which will house him in the winter and in summer.

Mr. Wm. Mitchell is rushing the setting up of the new machinery in the Niagara Cement Works. These works expect to have an exceedingly busy season.

Rev. G. A. Anderson, of Christ Church, has been suffering from a very severe cold, which has resulted in some cold drives over bad roads in the country.

We understand that Mr. T. P. Keeler, now of Colorado, has been appointed superintendent of the Murray Canal, and in connection with his many friends here desire to offer our congratulations.

The hand rail and steps leading from the street to the stairs of St. Mark's church are of unique design and it is supposed are in conformity with the "Christopher Columbus" style.

The Scott Act met with its first serious defeat last week having been defeated in Hinton by a majority of nearly 200. This defeat, it is supposed, will greatly affect the results in the approaching elections in other constituencies.

However much at variance with the assertion, the fact remains that the Company is a "live" institution. The first call of 25 per cent on the subscribed stock, \$5000, has been paid in, and incorporation will take place immediately.

Ottawa is in a state of perplexity owing to the Washington Treaty, John A. Macdonald's difficulty, double combination, Fishery protocols, Divorce Court proceedings, &c., &c. Stand forth Charles and elucidate, please. Hold out for the bridge from Deseronto to Prince Edward.

The estimated number of registered letters passing by mail in Canada for 1887 was 3,560,000. Of these only 166 went astray or were lost by fire or accident whilst in conveyance. The postal revenue for the year was \$2,603,255 and the expenditure \$3,458,100, showing a deficit of \$854,845.

We regret to state that Miss Jennie Porter has been compelled to temporarily resign the charge of her department in the public school. The Rathbun Company Band are negotiating with the Emma Wells Concert and Comedy Company for a week's entertainment in Deseronto during the month of May next.

The spring poet appears to be a person of the past. We cannot be too thankful that the fiend has disappeared. Would that all other poets would follow his good example.

Mr. W. C. B. Rathbun, of the Bay View Seed Farm, is receiving orders for all directions for flower, garden and field seeds. A large staff is kept busy packing and forwarding packages.

Winnipeg is not increasing in population as rapidly as anticipated. Vancouver appears to be the only town in the far west whose growth may be considered extraordinary, and its population is only about 6,000.

The board works near Central Park 49 Snider's corner needs repairing, in fact a new one is required. The work might just as well be done now when times are dull as it will all have to be on the sunny side of the street.

The weather has been very wintry during the past week, the thermometer some days sinking to 9° below zero. The ice in the bay is as solid as in January and the snow has not even begun to disappear. Gentle spring must hurry up.

The publisher's memoirs and correspondence of the late lamented and gallant General Gordon leave little doubt that he was not altogether in his right mind, and that he was equally responsible for the fate which befell him at Khartoum.

Mr. H. J. Whitley, of Brussels, has been engaged as handmaster by the Rathbun Company Band. He is well known as a highly respectable citizen and a first class musician who will prove a valuable acquisition to the community and a successful leader of the Band.

Mr. Matthew Hill, C. M., and Mr. R. M. Jack, D. M., attended the meeting of the Orange Grand Lodge of Ontario East at Port Hope. They report a large and enthusiastic attendance. J. B. Collins, of Millbrook has been elected Grand Master for the ensuing year. The next annual meeting will be held at Cobalt.

The Dominion Government have placed in the estimates the sum of \$1,307,100 for the enlargement of canals. It is proposed to deepen the Rideau canal to 14 feet, and to enlarge 14 ft. of water may pass down from Kingston to Montreal. A few years hence vessels will be clearing from Port Arthur and Deseronto for Liverpool.

Mr. Wm. Jamieson sold nine head of splendid fat cattle to Mr. W. W. Carter, butcher, on Wednesday last. Some quarters of the beef on exhibition yesterday in the Central Hotel were of the quality admired. Mr. Jamieson fed about sixty head of cattle this winter, and over half of these have been sold since. He is now selling his stock farm a profitable business.

Mr. D. Stewart, of Winnipeg, Provincial Organizer of the Canadian Order of Foresters, has been in town this week taking steps to the establishment of a local order in Deseronto. He has succeeded in getting about thirty names of respectable citizens, and a meeting will be held in Dr. Vanvorster's office, rear of Mallet's drug store, this evening at 8 o'clock, for making preliminary arrangements prior to complete organization. All who may be interested in the matter are cordially invited to attend.

How Mr. Hardy brought down a return showing the opinion of the Grand Trunk employees in Ontario as to the proposed mail route scheme. The answers show that the employees think the scheme is a good one, but they don't believe in being compelled to go into it. Comparatively few insure elsewhere. An interesting point in the return is that it shows the total number of men employed by the Grand Trunk in Ontario. There are 103 conductors, 181 engineers, 184 brakemen, 151 firemen, 776 sectionmen and trackmen, 350 mechanics, 80 station agents, 100 clerks, 100 and 100. The total number of employees is not given, but the total number is 2,979.

On Monday Mr. Mowat introduced his Franchise Bill in the Legislative Assembly. This bill, the most important brought before a Canadian legislature for many years, grants manhood suffrage without property or any other qualification beyond residence for a few months in the voter a constituency.

The preparations of the lists will be placed in the hands of municipal officers. Every male over 21 years of age will be required to be on the list. The Dominion parliament will soon bring in similar legislation. We can conceive of no measure more important to the Dominion than this.

Had Canada followed the example of the United States in this matter at an earlier day, it is safe to say that it would have had twice its present population and its national progress would have been infinitely greater. It only remains for our legislators to remove all property qualifications required of electors and officials in municipalities. These removed many of our towns and cities which are lacking in public spirit would be awakened from their slumbers.

**Be in your seats at an early hour next Thursday evening, the occasion of the Sacred Concert and Organ Recital.**

During the course of his sermon last Sunday morning the Pastor of the Church of the Redeemer pronounced an interesting exhortation on every where being done by women in the moral and religious movements of the age. He also expressed himself in favor of the extension of the franchise to women as he thought their influence would tend to purify the unhealthy atmosphere.

The library of the Presbyterian Sabbath School has been increased by a large number of new books and a new catalogue has been issued.

CARD.

The undersigned desires to thank the people of Deseronto and surrounding country for the liberal patronage so generously extended to him in the past. He desires also to inform them that he is now busy making ample preparations for the enlarged business which the steady growth and prosperity of Deseronto warrants him to confidently expect during the coming season. To that end he is now manufacturing and importing a large stock of Furniture suitable to afford an unlimited choice to all his patrons. The careful and economical manner in which he conducts his business enables him to give the public the benefit of low prices and a good article. His premises have been enlarged and it will be his constant aim to promptly fill all orders in Furniture and Undertaking with which he may be favoured.

Millinery Department.

Our Millinery Department during the coming season will be found more thoroughly equipped and more effectually managed than ever before.

We introduce no new and untried talent but recommend to your notice the Misses Smith and Walters who have so ably managed this department for three seasons past. Experience is a good teacher says the old adage and the large trade done in this department gives these ladies an experience second to none in the Millinery business. We have every confidence in their being able to suit the most fastidious.

As to our Millinery Stock, having a connection with the best wholesale Millinery House in Canada and their goods being confined to ourselves we will be able to show a line of Shapes, Novelties, etc., which cannot be procured from any other house in the trade. Another thing which we wish to present to your notice is the fact that we have one of the largest, best lighted and handsomest rooms in this part of the province. Our new goods are to hand and are rapidly being put in shape for your inspection. Watch for our grand display and don't miss seeing it when it takes place as it will be worthy of your notice.

House cleaning time will soon be at hand and you may want new Carpets. For fear that in the hurry worry and bustle of such a time you should overlook the fact that we can supply you with the cheapest and best carpets in the market we give you this timely notice. We will consider it a pleasure at any time to show you our new patterns in Brussels, Tapestry, Wool, Union and Hemp. Don't fail to give us a call.

**Carpets Department.**

Our Curtain Department shows a decided improvement. This is due to the goods it contains. We have a grand lot of Raw Silk Curtains cheap. A grand lot of Lace Curtains cheap. A grand lot of Curtain Scrim cheap. Take a look through the department and see if you do not think there is a vast improvement.

**Hat Department.**

As the warm weather approaches you are in need of a new Hat. Are you aware of the fact that we have imported a very large stock of Gentlemen's Hats direct from the Old Country? We can give you the most stylish, easy fitting and cheapest Hat in the market. Gentlemen's Felt Hats as low as 50 cents.

LESS LAND AND LARGER YIELDS NEEDED.

It is not in additional acreage that the progressive farmer must look for his gains, but in making less land yield more substance. This means, primarily, the bestowing of more labor upon small areas; and the average farmer this season synonymous with neglect of his larger acreage of grain. To harmonize these apparently conflicting methods is the task of the intelligent farmer of to-day. The two principal methods by which the value of the product of a limited portion of our acreage can be increased, are: the growing of vegetable supplies for our home markets throughout the season; and the growing of field crops of vegetables for shipment to city markets in the fall and winter. The first of these is particularly applicable to those farmers who are located near medium-sized towns—say of from three thousand to ten thousand population. Regular market-gardeners usually locate near the larger cities; and these smaller towns are dependent for their supply of spring and summer vegetables upon the want surplus of some farmers' gardens or upon shipments from the cities. The second method noted can be advantageously pursued by such as are located near cities, as their entire product can be there disposed of to a wholesale merchant; or by those remote from cities but near railroad over which their crops can be shipped in bulk to the city commission dealer.—*American Agriculturist* for March.

### WHAT AM I TO DO?

The symptoms of Biliousness are unpleasant but too well-known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events. The digestive system is wholly out of order and Diarrhea or Constipation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try *Groen's Astringent*, it costs but a trifle and thousands attest its efficacy.

ADVICE TO MOTHERS—Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup for Children Teething." Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers; there is no mistake about it. It cures Dysentery and Constipation, regulates the Stomach and Bowels, cures Wind Colic softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste" and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

The Crown prosecutors in Montreal are said to be consulting as to the proper method of instituting proceedings for conspiracy against the sugar combine, and an indictment will be laid before the Grand Jury at the ensuing term of the Court of Queen's Bench.

Prospects are hopeful for a very large immigration into Manitoba and the North-West Territories next summer. Captain Graham, Dominion immigration agent at Winnipeg, calculates that from advices he has received at least one hundred thousand settlers may be expected to arrive.

According to the *Petersburg Review*, the "Saved Army," an organization somewhat similar to the Salvation Army, has gone to pieces in Eastern Ontario where it had obtained a confidential position and trust. The chief difference between its methods and those of the Salvation Army was its refusal to patronize alcohol and trumpery.

The soldiers were a uniform, but their comparatively quiet efforts could not sustain the requisite enthusiasm, and the army slowly dissolved. The last remnants of the army and the drum-beating to the Salvationist cause is thus clearly demonstrated.

A railroad engineer, of Erie, Pa., fell violently on the ice, striking on the back of his head. He is recovering, but finds when standing erect he is wholly unable to see as he can see as well as ever when lying down.

The Union Square theatre, New York, was destroyed by fire Wednesday afternoon, and the Morton House hotel badly damaged, the total loss being about \$300,000.

Several firemen were badly burned and injured by the falling in of the theatre roof.

A curious freak of the cyclone at Mount Vernon, Ill., was seen at the Commercial hotel, where the wind carefully lifted the top of a cistern, and after setting it aside darted down into the great tank and scooped the water out with as much ease as if it had been done with a ladle.

Boston has increased her permanent vagrant population 28 per cent. in five years. She has accomplished this by increasing her charitable fund, and has at length become convinced that the bigger the poor fund in a city, the greater the number of applicants.

A woman in Burlington, Me., just previous to her death, prayed earnestly that her babe might accompany her on her journey to the other world. The child, who but an hour or two before was as well as usual, playing and as fat as length, immediately after receiving a kiss from his dying mother closed its eyes, and in five minutes or less was dead.

An old lady in Norwich, Conn., is a firm believer in the doctrine of faith-healing, and says the reason why the water pipes in her house did not freeze was that her neighbors were sorely bothered from this cause, and were entirely due to her faith. She resolved to let the Lord take care of them, and not pipe freeze, though all the water in the neighborhood were choked up tight.

A Pennsylvania lawyer who went West and settled in Minneapolis does not appear unmannered of his climate. He says "I must be confessed that the Minnesota winters are hard on professional people. For 120 days in succession the thermometer is as low as the thermometer in the North. Before spring returns the vitality of people who are shut up in offices is nearly exhausted, and they have become a drugged, pumped-out creature that can only be explained as the result of the severity of the climate."

Complete returns in Prince Edward last Saturday night are as follows: Majorities for Platt—Pictou 28, Halliwell 188, Sophiasburg 107, North Marysburg 72, Maryburg 72, South Marysburg 72, Athol 40, Wellington 3, Ameliasburg 65, Hillier 34.

The storm on Tuesday was probably the heaviest of the season, having demoralized railway traffic over the greater part of Canada and the Eastern States.

Country roads were very much blocked in this section though the main lines are better than in other portions of the province.

The Minister of Education in his annual report makes the usual wall about irregularity of attendance at schools and the evils resulting therefrom. He fails to suggest a remedy. As long as our local government is so lax in its enforcement of the law, attendance at schools will continue to remain inefficient.

A genuine Maine Yankee has been doing a thriving business in the winter weather selling to steamboat passengers a sure preventive to sea sickness for five cents a package. The remedy is simply nice, bright, clean strips of dried codfish and it is well worth the money for the purpose for which it is used.

The great interest was evinced here in the result of the great pugilistic encounter between Mitchell and Sullivan. The battle ended in a draw after thirty-nine rounds had been fought.

Mitchell eluded his giant adversary and by his clever strategy wearied him, and had the mill been prolonged the probabilities are that Mitchell would have been declared victor. There appears to have been little of the honest, old fashioned slugging.

Although got up on short notice the Young Peoples Association social held in the parlour of the Presbyterian Church last Friday evening proved a very pleasant event, the attendance being good and the programme excellent.

Mr. W. D. McEae filled the chair with becoming grace. The programme included a piano solo by Miss Cameron, piano duet by Misses Cameron and McEae, selection on the piano and vocal solo by Mr. & Mrs. M. D. Campbell; vocal solo by Miss Hottel, Mrs. M. D. Campbell, Miss Hattie Bowen and Wm. Geddis; a quartette by the Misses Hottel, Deane, Bowen, and Maggie Stoddard. Rev. E. J. Craig, Dr. Allen, and the chairman also gave eloquent addresses. During the evening tea and coffee was served in great profusion.

A pleasing episode occurred at the O'Connor home on Wednesday evening, when Miss Ellen Fitzgerald and Miss Annie Sharp, housekeeper and stewardess, respectively at that popular hostelry, were presented with a handsome set of china each by the boarders who there congenially quarters. These young ladies who have been for some years connected with the hotel as general favorites, and as they are leaving the hotel and a state of singleness at the same time, the boarders with great unanimity voted to show their appreciation of the fair attendants in the manner aforesaid. After the presentation all concerned sat down to a sumptuous oyster supper, after which songs, spoken toasts, &c., were in order and a time of enjoyable pleasure passed.

All the daily papers for sale at The Tribune office.

The Beehive has been spending a few days in Ottawa this week on business.

The creamery product and canning factory still continues public attention.

Tyendinaga and Richmond farmers will have Hamilton 30 cent each and no other.

Last quantities of material are now daily turned out at the Terra Cotta Works.

The Grand Trunk will sell tickets at reduced rates during the Easter and Spring holidays.

Speculation is rife as to the chances of the Big Mill starting up by the 15th of April.

Mrs. Edward Gracey, Mill street, can give very comfortable accommodation to a number of boarders.

A series of special services will be commenced in the Presbyterian Church next Wednesday evening.

The elevated bridge for the bran conveyors at the Flour Mills is quite an ornamental structure.

The election on Sir Richard Cartwright's Reciprocity resolutions is in progress in the House of Commons.

The channel at the light house is beginning to open up, but elsewhere the ice in the bay is as solid as ever.

On Tuesday 13 Canadian colonizers left Toronto by the C. P. R. to see in the Northwest. Several were from this district.

Mr. Ira David, of Solmesville, while putting in his time on Tuesday, met with an untoward accident, having slipped and broken his leg.

Did you see that long procession of young men making their way up St. George street last Saturday night?

Mr. George Parham is making good progress with his new store. The plasterers are now at work on the interior.

The new premises promise to be neat and attractive.

These promises to be a great source of honor to Deseronto during the coming season. A few blocks with shops conveniently located would be a very profitable investment.

A number of young men in town will refuse to pay poll tax this year unless a boardwalk is laid down on the Napanee road for a mile at least out of town and that too before the roads get sloppy and muddy.

Mr. James P. Robin, the successful candidate in the recent election in North Dufferin, is a son of Mr. R. P. Robin of Northport. He went to Manitoba some five or six years ago, and is now a resident of Winnipeg and extensively engaged in the grain trade.

There is one thing that the proprietors of this paper wish that they could impress upon the minds of those who despise the paper is that the name of the postoffice to which the paper is going is as well as that which they are to be represented, and sold at the lowest possible price.

Western papers are hinting at the possibilities of an Indian rising. It is probably only a scheme to get detachments of mounted police for his farm, garden and flower seeds from all parts of the adjacent district, and from remote districts of the province, and also from the Bay of Quinte.

Conductor Coughlin, of the Bay of Quinte railway, was the recipient of a handsome present which took the shape of a cap, from the postoffice address changed and it is well worth the money for the purpose for which it is used.

Geddis and Greatrix, two well known amateur growers of St. George street, are feeding and speeding their fiery paces every day, with a view to another race through Tyndinaga to corner the egg market for Easter.

A meeting of the congregation of the Methodist Church was held Friday evening last to discuss the advisability of enlarging the church. All were agreed that the work should be proceeded with. A committee was appointed to secure subscriptions from members for the desired portion necessary to be raised according to the rules of discipline in the Methodist Church, before the alterations could be made.

The lists have been pushed with commendable energy and the amount has already been subscribed by the members of the church. The work of enlarging and otherwise improving the church edifice will, no doubt, be commenced early in the coming season. All the edifice of the congregation are at present cramped for lack of additional accommodation. The alterations completed will ensure a sacred edifice which will be creditable to the Methodists of Deseronto.

Millinery Department.

Our Millinery Department during the coming season will be found more thoroughly equipped and more effectively managed than ever before.

We introduce no new and untried talent but recommend to your notice the Misses Smith and Walters who have so ably managed this department for three seasons past. Experience is a good teacher says the old adage and the large trade done in this department gives these ladies an experience second to none in the Millinery business. We have every confidence in their being able to suit the most fastidious.

As to our Millinery Stock; having a connection with the best wholesale Millinery House in Canada and their goods being confined to ourselves we will be able to show a line of Shapes, Novelties, etc., which cannot be procured from any other house in the trade. Another thing which we wish to present to your notice is the fact that we have one of the largest, best lighted and handsomest rooms in this part of the province. Our new goods are to hand and are rapidly being put in shape for your inspection. Watch for our grand display and don't miss seeing it when it takes place as it will be worthy of your notice.

Carpet Department.

House cleaning time will soon be at hand and you may want new Carpets. For fear that in the hurry worry and bustle of such a time you should overlook the fact that we can supply you with the cheapest and best carpets in the market we give you this timely notice. We will consider it a pleasure at any time to show you our new patterns in Brussels, Tapestry, Wool, Union and Hemp. Don't fail to give us a call.

Curtain Department.

Our Curtain Department shows a decided improvement. This is due to the goods it contains. We have a grand lot of Raw Silk Curtains cheap. A grand lot of Lace Curtains cheap. A grand lot of Curtain Strips cheap. Take a look through the department and see if you do not think there is a vast improvement.

Hat Department.

As the warm weather approaches you are in need of a new Hat. Are you aware of the fact that we have imported a very large stock of Gentlemen's Hats direct from the Old Country? We can give you the most stylish, easy fitting and cheapest Hat in the market. Gentlemen's Felt Hats as low as 50 cents.

## MILLINERY -- STOCK -- COMPLETE

## CHEAPSIDE.

All our goods are in and our staff of hands is at work preparing  
for our Grand Millinery Opening, which will be held on

SATURDAY, MARCH 31ST.

Now, we want to say a few words to you about our Staples.

WE ARE GREATLY IMPRESSED with the value of our Shirtings, beginning  
at 7 cents a yard for fast color goods, and so on up to 8, 10, 12, 14 cents. We think  
these as well as our Cottonades, Ducks, etc., are from 2 to 5 cents less than charged by  
most of our stores.

OUR GREY AND BLEACHED COTTONS were bought before the late advances  
in price and are specially good value.

OUR GINGHAMS, PRINTS, SEERSUCKERS and CHAMBRAYS  
are much lower than these goods can be regularly bought, and we want an opportunity  
to show them to you to prove it.

THEN OUR DRESS GOODS DEPARTMENT is worthy of our attention and  
certainly of yours. The range of handsome goods we show at 8, 10, 12, 15, 20, 25, and  
35 cents, is large, attractive and awfully good value.

OUR GENTS' FURNISHINGS Department is complete with the very newest  
things out in Collars, Ties, Gloves, Handkerchiefs, Sox, Braces, Shirts, etc. We sell a  
very good Unlandried Shirt for 45 cents, a fair quality Laundered Shirt at 55 cents.  
We show a splendid range of New Canadian and Scotch Tweed Suits and Pantings,  
worthy of your attention if you want to buy. MAX FOX, CUTTER.

Our Gents' Furnishings Department is growing rapidly.

## READY-MADE CLOTHING.

WE HAVE JUST bought a line of Men's Suits and Pants, which we hope to  
have by next week at startling prices.

WE WILL sell a nice pattern Tweed pants for \$1.75. There is no mistake in  
these figures, it is One Dollar and Seventy-five cents for a well made pattern Tweed  
Pants.

WE WILL sell a nice English Worsted Pants for \$2.25.

WE WILL sell a lovely pattern French Worsted Pants, as nice as you ever saw,  
for \$6 and \$7, for \$3.

WE WILL sell a man's complete suit of Navy Blue Serge, coat, vest and pants  
for \$5. A nice Tweed Suit, complete, for \$7.

## OUR BARGAIN TABLE.

is a very attractive place just now. A lot of new goods have just been laid out and follow-  
ing is a few of the prices.  
All- linen Towelling at 5 cents.  
Wider wider all- linen at 6 cents.  
Heavy, wide all- linen at 7 cents.  
All- linen Towels at 8 cents a pair.  
Good linen Towels at 10 cents a pair.  
Good All- linen Towels at 15c. a pr.  
Splendid value in every department. Great assortment. Low cut prices.

## MAKE THE CHICKS HAPPY.

Some people succeed with a "happy go  
lucky" way. Their chickens weigh as much  
at ten weeks old as those of their painstaking  
neighbors, but they would be geniuses  
in any calling, and they know just when to  
stop being careless. The rest of us must  
trust to hard work, much thought, and more  
cleanliness.

All chickens, little and big, ought to be  
kept not merely contented but distinctly  
happy. Sometimes one is made anxious by  
finding the little chickens in one pen suddenly  
drooping down and looking dead. Perhaps the  
last meal was too delicious, and they ate too  
much. In any case, leave them unfed until  
they are hungry; then change the food and  
give them something to amuse them. A  
brilliant lamp is a delight to them on a dark  
day. They think that they have surely  
found the sun at last, and can find out what  
it is made of, if they pick at it enough. It  
is a pleasure in one's work if everything  
when one does their part all goes well and  
pretty. Two-day-old Houdans are be-  
witching things, and it seems worth while  
to have put gay curtains in their brooders  
when one sees their puffing heads peeping  
out. Keep the "fathers and mothers" of the  
hoped for chickens lively and happy. Give  
them much to eat and warm their feet. They  
find their wheat in and warm their feet.  
The muslin house illustrated in the  
*American Agriculturist* for December,  
1886, keeps the snow away from these pic-  
nic dining-rooms and adds to their comfort.

## DON'T

Let that cold of yours run on. You think  
it is a light thing. But it may run into  
catarrh. Or into pneumonia. Or consump-  
tion.

Catarrh is disgusting. Pneumonia is dan-  
gerous. Consumption is death itself.

The breathing apparatus must be kept  
healthy and clear of all obstructions and  
offensive matter. Otherwise there is trou-  
ble.

All the diseases of these parts, head,  
nose, throat, bronchial tubes and lungs, can  
be delightfully and entirely cured by the  
use of Beechey's German Inhalant. If you  
don't know this already, thousands and  
thousands of people can tell you. They  
have been cured by it, and "know how it  
is themselves." Bottle only 75 cents. Ask  
any druggist.

## AN ATROCIOUS MURDER.

AN OLD WOMAN BEATEN TO DEATH AND THE  
FIRE FIED.

ITHACA, N. Y., March 17.—Richard Barber,  
a farm hand employed by Thomas Donahue  
during the past winter, was lodged in jail  
here this noon charged with the most  
atrocious crime committed in this section in  
half a century. Richard Mason and his  
wife, an inoffensive, childless couple, aged  
about 70, have lived for thirty years in a  
little house on two acres of land two miles  
east of Trumansburg. Last night, as the  
at the door aroused Mason, who admitted  
Barber, with whom the Masons were well  
acquainted. Lighting a lamp Mason started  
to go down the cellar for a dish of apples.  
Barber seized a heavy stove poker or shaker  
and struck the old man on the head as he  
stood at the cellar door. Leaving him after  
a second blow, Barber went into the chamber  
where Mrs. Mason was lying in bed and  
hammered her to death with the same  
weapon. The fainting husband heard his  
wife's loud cries of agony subside into moans.  
The only head paid by the miscreant to  
Mason's appeal for mercy for his wife and  
himself was a return to the midnight on the  
husband. The murderer then emptied the  
contents of the oil lamp upon the old man  
and the carpet, and igniting it fled from the  
house. Mason recovered sufficiently to  
crawl from his house into a snow-drift,  
leaving the body of his dead wife for re-  
mains in the blaze which consumed the  
house. The fire was discovered by the  
neighbors, two of whom conveyed the  
mutilated farmer to an adjacent house, where  
the entire neighborhood became  
aroused, and when Mason informed them of  
the facts enraged parties of searchers set out  
to apprehend the murderer. Barber was en-  
countered on the road and kept in custody  
by a tirong of men until the arrival of De-  
puty Sheriff Barton, who succeeded in  
petting him to Trumansburg and protecting  
him until the train brought him to Ithaca.  
Barber is an Englishman and has been in  
this country eight years. The only theory  
accounting for the crime is alleged to be his  
knowledge that the Masons had, of their  
savings, \$100 hoarded in their house.

## SLIGHTLY AHEAD OF DESERONTO.

The city of Omaha planted over 120,000  
000 of brick in stores, bank buildings, pack-  
ing houses, and residences during the year  
1887. The sales of Omaha's jobbing houses  
for twelve months foot up over \$44,000,000.  
The stock yards have handled 265,000 head  
of cattle and over 1,100,000 hogs. The  
smelting works, breweries, oil mills, distill-  
eries, shot factory, lead works, foundries  
and minor industries have turned out  
over \$20,000,000 of products. The packing  
houses have slaughtered over 65,000  
head of cattle, 875,000 hogs, and 50,000  
sheep, which were converted into meat  
products, at a cost of over \$12,000,000. The  
sales of Omaha wholesale grocers aggregate  
over \$5,000,000 during the year. One hun-  
dred and twenty two passenger trains now  
run in and out of Omaha every twenty-  
four hours. The National bank of Omaha  
has over \$12,000,000 on deposit, and the  
clearings of these banks last year were very  
nearly \$150,000,000. Over 7,000 skilled  
and unskilled workmen are employed in  
Omaha industrial establishments. In addi-  
tion to these, over 2,000 laborers were em-  
ployed last season in the Omaha brick yards.  
These are solid facts.

## SACRED CONCERT AND ORGAN

## RECITAL.

The Sacred Concert and Organ Recital  
held in the Church of the Redeemer, on the  
evening of Thursday, 15th inst., proved a  
very decided success. The large attendance  
and the excellence of the programme made  
the occasion a notable one. The sacred  
edifice, well lit, and decorated with flowers  
and complete in its arrangements for com-  
fort and convenience, looked exceedingly  
handsome and elicited much admiration.  
The concert opened at 8 o'clock with an  
organ solo "Der Freischütz" to which Mrs.  
Campbell did ample justice as indeed was  
the case in all her items. The "Offertoire"  
in D Minor and "Home Sweet Home"  
gave her a full opportunity of displaying  
her complete command of the instrument,  
her fine pitch playing and brilliant execution  
earning for her the warmest appreciation  
of her audience. Here, as elsewhere, organ  
solos are very often not so acceptable as  
other music but no doubt as the cultivation  
of music progresses good organ playing will  
be more thoroughly enjoyed. Mr. H. Ayle-  
bourne was the first vocalist to appear, and  
his selection of "Nazareth" was a happy  
one. He also afterwards sang "Joy  
as a Bird" for which he was accorded a  
hearty encore and a warm applause.  
He also took part in two quartettes and fully maintained  
his already well established reputation as a  
promising singer. His "Home Sweet Home"  
peared and it is needless to say that his  
voice was most cordially welcomed and that his  
selections were given with a well-remem-  
bered correctness of method and sweet-  
ness of expression. Her first piece "Ave Maria"  
was excellently rendered, and being en-  
coured, she responded with "Home Sweet Home"  
which was rendered with much pathos, but  
it was not until later on she sang "Consider  
the Lilies" that she displayed the resources  
of her excellent talent and completely  
charmed her audience. Miss Botwick  
next favoured the audience with an organ  
solo, "Auntie" in which she was well re-  
ceived. Many regretted that this young  
lady did not also contribute a vocal item.

Miss Burdette, who made her first ap-  
pearance before a Deseronto audience, ren-  
dered first "Come unto Me" and, this being  
fervently en-  
coured, "O sweetly solemn  
Thought" and subsequently "Just as I am  
without one Plea" which she well re-  
sented. She possesses a rich contralto voice of a most  
pleasing quality and very good range, being  
equally at ease in her upper or lower notes,  
she made herself a favorite with the entire  
audience. Mr. E. C. French contributed two  
organ solos, the first, the "Agnus Dei" and  
"Dona Nobis" from Farmer's Mass in B  
flat, and the second Mendelssohn's "War  
March of the Priests." In both these  
pieces, but especially in the latter, Mr.  
French proved himself a very capable or-  
ganist and his performance met with de-  
cided approbation. Mrs. Hillman contrib-  
uted very much to the success of the  
concert by her numbers on the programme.  
"The King of Love" was rendered to great  
advantage, and being rapturously applau-  
ded, she gave "The Day is past and gone."  
In the second part of the evening she suc-  
cessfully rendered "Beyond the Gates"  
and the hearty reception accorded her  
proves that Mrs. Hillman has become an es-  
tablished favorite with the audience. She  
was unfortunately suffering from a severe cold  
and was thus prevented from taking several  
of the numbers assigned to him on the pro-  
gramme, nevertheless in the song "Sweet  
and Low" by Miss Burdette and Miss  
Burdette, and Messrs. Barber and Ayle-  
bourne. The National Anthem brought this  
very successful event to a close. The  
various organ accompaniments were bril-  
liantly executed by Mrs. H. B. Rathbun  
much to the satisfaction of the vocalists  
and audience. It would be unfair to con-  
clude this report without stating that the  
public use this musical treat to Mrs. E. C.  
French who, with a laudable object in  
view, secured the services of the various  
vocalists and musicians, and gave much  
time and effort to make the concert first-  
class in every respect. We have no doubt  
that she feels amply repaid not only by the  
financial success, over \$175 being realized,  
but also by the hearty expressions of gra-  
titude from all sides for the profitable en-  
joyment afforded on this occasion.

At the last meeting of the Council little  
business was transacted beyond the ap-  
pointment of Mr. John McCullough as assessor,  
and the appropriation of some small amounts  
in charity.

Mr. Charles Dudley Warner's comments  
on Northwestern civilization, in the opening  
paragraph of his second article about the  
West, in *Hansen's Magazine* for the month  
of March, have been read and given with  
sincerity of things and manners which  
he does not admire, but he is equally out-  
spoken in regard to the material progress of  
Western life which he admires immensely.  
Bitter as is not a bad mixture if the pro-  
per proportion of the ingredients is main-  
tained. Minnesota and Wisconsin receive  
the most of the writer's attention in this  
number, and every word thereof is most  
of attention, especially from ignorant Eastern  
people wrapped up in provincial prejudice.  
If Mr. Warner keeps on writing, and they  
keep on reading, they may in time learn  
enough about their country to form an  
adequate notion of its greatness and their  
own comparative insignificance.

The Supreme Court has dismissed the appeal in Sir Adolphe Caron's case on the ground of want of jurisdiction.

An English syndicate has obtained a concession for the construction of a railway from Bangkok to Zimma, in Siam.

The Court for the trial of parties accused of corrupt practices in Gleggarry has been further adjourned till May 21st.

The boat race between O'Connor and Peterson at San Francisco on Sunday was won by the former by four lengths.

There are 3,173 pupils attending the sabbath schools in the congregations connected with the Presbytery of Kingston.

Next Sunday is Palm Sunday. Monday is the anniversary of the burning of Fort Carleton, an event of importance in the Kiel rebellion.

The synodical committee of the diocese of Ontario will meet at Kingston during the week commencing April 16th. The synod will occur four weeks later.

The last train from New York to Jacksonville, known as the Cuban Mail, went through a trestle in Georgia on Saturday. Twenty three people were killed and many injured.

It will pay any bank and all the banks to fix rates, not on the necessities of their customers, but on what they can stand, and thus draw and keep the cream of the borrowers.

The man who is deserving of the name is one whose thoughts and exertions are for others as well as himself. It should be a world of mutual help to make it fully enjoyable as the Creator intended it should be.

It would be a meritorious act for our council to vote a donation to the Kingston or Belleville hospital, or failing this if the various churches would unite in an entertainment for the benefit of one of these excellent institutions.

Since time is not a person we can overtake when he is past, let us hasten to the north and cheerfulness of heart while he is passing. Time is the loveliest thing that grows beneath the sun to those who know how to use it aright. Nothing could be more conducive to this end than a cheerful and commodious music hall in this village. Can we not have one? Public spirited citizens remember you cannot live always.

"We should hold fast to principles at all cost, and work directly in the line of the best models; thus will our consciences be clear, our characters pure, and our lives will be fruitful in the best results." Therefore when public measures, calculated to advance the interests of the village, are brought forward, every citizen should take hold and keep beyond the pocket limit. On the contrary, if you abandon principle and resort to expediency, you assume a load under which you will continually totter, and go down at last, probably, unsuccessful, certainly unrespected. Leave expediency to politics.

The largest magnet in the world is at Willett's Point, N.Y., where two 15 inch Dahlgren guns with eight miles of cable wrapped about them have been employed for the purpose. Some faint idea of the power may be received from the fact that it takes a pressure of 25,000 pounds to pull off the armature. A crowd which was applied to the magnet required the force of four strong men to tear it away. A handful of pins thrown in the opposite direction immediately flew back and attached themselves to the air, one under the other.

The people of Montreal are making praiseworthy efforts to force the Dominion Government to assume the Lake St. Peter channel debt, and to restore the moneys drawn from its shipping trade as interest on that debt. We hope they will be successful for the slightest consideration given to the matter will show that the charges now levied on shipping are excessive and result driving trade to New York and other ports in the United States. It is not Montreal alone that suffers; the business of the whole country is affected by the harassing port and other charges now levied on the St. Lawrence. We have no doubt that public opinion will sustain the government in any measure calculated to afford the necessary relief. With Montreal a free port, canal duties removed, and the capacity of the canals increased, the St. Lawrence route would soon gain the greater proportion of the carrying trade of the great west.

The eighteenth annual report of the Inspector of Charities upon the hospitals of the Province of Ontario is to hand. From it we learn that during 1887 there were treated in these sixteen hospitals 7,322 patients an increase of 87 over the preceding year. The cost was \$63,675 an increase of \$5,735 on the previous year. In the Belleville Hospital 1,762 were during the year 86 under treatment, of whom 8 died. Of those admitted 63 came from Belleville, 14 from County Hastings and 9 from other counties, males 53, females 23; 57 Protestant, 29 Roman Catholic, 18 from the Province of Ontario \$87; Belleville City, \$280; County Hastings, \$87; from patients \$249.25; donations from private individuals \$889.13; other donations \$688.41—Total \$1,694.57. The government grant for 1888 is \$1,101.29.

## CHAPTER XXIII.

"I'm going right on to Paris first," he continued, "and I shall take Miss Beresford as far as Calais myself. I shall come back as soon as I have finished the business which takes me to Paris, and then I shall take your advice and speak to Mr. Beresford."

"I shall be all right, Gerald; it will be your turn to be watchful then, as I shall have to give up the stone to you at Calais."

"Go straight to him the moment you get to Paris, before you go anywhere else, because my appointment with him is for twenty minutes after the arrival of the train."

Mr. Edward Westmoreland, of the Central Meat Market, has purchased four head of magnificent cattle from Mr. Wm. Jamieson for the Easter market. These cattle are said to be of the best ever brought into Deseronto.

A fire alarm was sounded on Wednesday evening when it was discovered that the south east annex of the Chemical Works was the scene of the conflagration which was speedily suppressed by four powerful streams of water before much damage was done.

PRINTING OFFICE RULES.—When visiting a printing office keep these rules in mind: Subscribe for the paper and pay in advance; keep six feet away from Jim the devil; hand off the manuscript; don't talk to compositors; don't touch the exchange and don't read the type on the galley.

Miss Warton holds her military opening to-day and to-morrow. Her stock of bonnets, hats, trimmings, feathers, &c., are very fine this year and on a scale much larger than that of former seasons. The ladies will not forget to give her a call as they will be amply repaid by the visit.

The Rathbun Company Band have secured the services of the Beethoven Quartette for a concert to be held on the evening of Tuesday, March 27th. It will be remembered that this company gave a most successful concert here last winter under the auspices of Craig Lodge. The public will be glad to have another opportunity of hearing Mr. Chas. Kelly at the Band Concert, the company. In addition Mr. James Fax, the renowned comic singer, will take part thus ensuring an evening of great pleasure and amusement. Tickets of admission 25 cts; reserved seats 35 cts. Plan of hall at Egar's drug store.

Mr. John Dalton recently paid a visit to a number of the western towns of Canada on matters connected with his business establishments in the town hall. He was considerably disappointed with the appearance of several of these towns, which situated in the garden of the west, are supposed to be very enterprising and public spirited. He considered that most of them had attained their full growth and many of them exhibited evidence of decay. He said that he manifested the go-ahead spirit of Deseronto. These observations of Mr. Dalton bear out what we heard recently from the west. We have reason to be satisfied in Deseronto, as the fates have been propitious to us during the past years of general depression in the province. These facts should stimulate us to work more energetically in building up the town and so improving it materially and socially that our pride in it may be increased.

Mr. Thomas Dryden is making an extension to his residence.

Beautiful Embroideries, rich and cheap, at the Misses Evans, corner Thomas and Prince Streets.

Principal Grant, of Queen's College, will leave shortly on a trip to Australia, to be absent at least nine months.

The customer who pays the top price for money and borrows when money is dear and needs it at a risk runs the risk of loss.

Already each hand in the cash factory has his ear stretched to catch the first notes of the melodious bull-frog who in the environment of the factory finds a congenial retreat.

Mr. Thomas H. Nasmith has the honour of being the senior member of the staff in the bank department of the Rathbun Company.

Mr. Chas. Gouge, on the other hand, is the youngest clerk in the department.

A young lady on Dundas street, whose lover is a chemical works expert, insists on his carrying out of candle-coloured to counteract the mercuric odours which impregnate his carburetted garments.

Mr. John Dalton is again for Fane & Co's famous bicycles, the best in the market.

Young men who intend indulging in this amusement during the coming season should visit Dalton & Co and inspect these goods.

The pupils of Miss Porter's department of the public school held a concert on Monday afternoon after school hours with the laudable purpose of raising funds to purchase some pictures and frames to decorate the walls of the room.

The council should scrape some of the mud and dirt off the principal streets before the spring thaw sets in.

It would greatly improve the appearance of things at a time of year when everything looks wretched and shabby.

Mr. Dalton holds his spring military opening on Saturday, March 21st. Her stock is very complete in every detail and will be superior to any other in the town.

Attention of all the ladies of the district is directed to this announcement. A visit to her rooms will be found profitable in every sense of the term.

These are our sentiments. The "Bankers monthly" says: In Europe, the commercial crisis has been so severe that it hardly pays the risk, time, and labor of handling. We doubt the policy of shoving up the rate in this country in every pinch.

Figures that would make a good profit to the merchant and leave a fair remuneration to the lender if divided. One effect of this high price of money is the establishment of new banks and other loan associations and thus increased competition and undue investment in banking.

The Pictou Times says:—Some 60 white oak logs, each averaging about 36 feet long, are lying at the Rathbun Co.'s wharf here, awaiting shipment to Deseronto, where they will be used in ship timbers.

They were taken from the farm of Mr. Peter Scott, of Athol, and must have netted that gentleman a fairly round sum. Another lot of similar logs, taken from the farm of Mr. Simpson, Sophiasburg, and intended for the same purpose is lying on the High shore where, when the logs disappear, they will be rafted to the Rathbun Co. at Deseronto.

At a late meeting of the Murchison Scientific Club, of Belleville, Mrs. C. S. Stewart presented a fine shingle 24 ft. 6 in. long, 8 in. wide, and 1 in. thick, which has stood the weather for over one hundred years. This shingle was taken from the roof of Washington's quarters at Newburgh on the Hudson. She also gave one of the nails with which it was fastened to the roof, and which was probably manufactured at the blacksmith shop of the army. The wood was a very superior kind of cedar, showing devolution even in shingles.

It has been calculated that on an average each man who attains the age of 70 consumes during the course of his life 20 wagon loads of food, solid and liquid. At four tons to the wagon, this would correspond to an average of about 100 ounces per day, or say about 120 ounces per day during adult life, and 80 ounces per day during infancy and youth. Most modern doctors agree in regarding 120 ounces of food per day, corresponding to five or six half pints of liquid food and seven or eight pounds of solid food, as in excess of the real daily requirements of a healthy man or woman.

Perfect manners are a part of the character, as much as patience and honesty; and their benediction is displayed not only towards the smooth, but the unjust, the rough and the snooty, the high and the low, the poor as well as the rich. In fact they seem to belong to the texture of the weaver's mind, to be a reflection of the spirit of justice which would give everybody his due, withholding no civility or kindness. Rough or rough demeanor effects nothing, and lowers the influence and self respect of him who so forgets himself. The Japanese are an example of perfect poise that might be well imitated by Westerners.

Mr. P. D. Armour has a negro student at Oberlin whom he is educating, and the story goes that he met him on a palace car during an eastern trip. He noted that the colored boy spent his spare time in working away at a well thumbed reader, and it was such hard work that Armour offered him \$25 if he could spell out ten lines before the train got to New York. The boy succeeded in the task and got the money. He got Armour's friendship as well, and he has since blossomed out into quite a college student. He has been ordered of his class, and he can write a good hand—better than many of the white boys.

Armour is a man who is very charitable to his employees and delights in helping them. He does not see a man trying to get along he promotes him, and he induces his men, whenever possible, to buy homes and to strive for as high a mark in life as possible.

A meeting of the Deseronto Cemetery Company for the purpose of organization was held in the town hall last Tuesday evening. There was a large attendance of shareholders and a great deal of enthusiasm manifested. The following gentlemen were elected: directors—Wm. Irvine, Wm. Jamieson, Dr. Newton, T. H. Nasmith, J. M. Oliver, A. A. Richardson, E. W. Rathbun, Richard Bayburn and C. E. Siskind.

At a subsequent meeting of directors, Mr. E. W. Rathbun was elected President and Mr. J. H. Nasmith, Secretary-Treasurer.

The property selected, viz, the Unger and Patten property, was unanimously decided upon as most suitable for cemetery purposes, and arrangements were made for its purchase from the Rathbun Company. Immediate steps will be taken by the Board for all necessary preliminaries and the early establishment of the Cemetery.

Mr. Thos. Pigden reports lumbering operations as about closed for the season on the Bogart farm.

Editors fairly dote on persons who can call in, tell their story in a few words, leave the office, all in less than three minutes.

Fish is good when you can get white fish, salmon, codfish, herrings, and all kinds in one bite. If you want to enjoy a good fish dinner, go to the fish market.

The big thaw on Monday and Tuesday caused the snow to disappear rapidly and the torrents of water rushed down the streets and over the boardwalks.

Mr. James Fax who sings at the concert on Tuesday, March 21st, is said to be a whole company in himself and able to keep the audience in a perpetual roar of laughter.

Our thanks are due to Mr. J. D. Burgess for the long-kept papers which give detailed accounts of the great snow storms which paralyzed traffic all through the state of New York last week.

As Mr. John Goldsmith intends removing to the North West, his place as engineer of the Coast-guard will be filled by Thos. Burgess of the Machine Shop, who will be in turn succeeded by Samuel Johnson, of Peterboro.

"Do as we say," and not as we do." The corporation officials have set residents a very bad example during the past winter in the matter of snow clearing. The sidewalk opposite the market has been in a very creditable shape with snow.

The blow off cough of the locomotive of the Bay of Quinte is so loud that it is heard on Wednesday morning, preventing the train from making the connection with the east express.

Thos. Gault's express conveyed passengers to the station.

An exchange states correctly that for hogish ignorance and mean inequality the men who have been in the "hog" business" by the postmaster has no equal. The gentlemanly way is to apprise the publisher by a postal card or letter.

It is currently reported that some miscreant has destroyed all the fancy leather cushions of the seats in the council chamber of the town hall. Such vandalism should be held up to the condemnation of coming generations.

The residence of Mr. Marshall Woodcock caught fire on Tuesday morning, owing to a bursting lamp. Some carpet and furniture was destroyed and other damage done. Mr. Woodcock had his face burned in his efforts to extinguish the flames.

Mr. Peter Abrams with a large load of goods purchased from W. C. Bruton while on his way home to Napanee broke through the ice opposite the Union Hotel and got out all right and got his load home safe. They will run all risks to purchase goods, &c., from Chart Bruton.

It must be so—when everybody says so, that when you want anything and cannot find it, then go to W. C. Bruton's and you will get it. He has everything you need, first thing and save yourself time trouble and expense, as Bruton saves no time in looking up what his customers and the public need. In his store he has everything you need, the largest, freshest and best selected stock of groceries and provisions in town. Give him a trial and be convinced. Remember his stand, opposite the O'Connor House, Deseronto.

Dr. Allen, who during the past year has been practicing his profession in Deseronto, has decided to remove to Kingston and left for that city yesterday. During his stay here the Doctor made a great many friends who regret his decision to leave our busy town.

He is a man of his capacity and his withdrawal from the community, the Young People's Association of the Church of the Redeemer, of Deseronto, has been a great loss. He decided to testify to their appreciation of his valuable service to the Association by some marks of esteem. A special meeting was accordingly called and held on Tuesday evening at the hospitable residence of Mr. William Stoddart. There was a full turnout of the members of the Association and it is needless to say that a very pleasant evening was enjoyed by all. Mr. W. D. McNeil, as master of ceremonies, reigned supreme. During the evening Dr. Allen was surprised when W. A. Macleod, Vice President of the Society, read a flattering address which referred to the valuable services rendered by the Doctor during his stay here. He was even more astonished when at the proper moment, Miss Aggie Davis stepped forward and presented him with a beautiful bound volume of copies of the poetical works of Shakespeare and Browning. Dr. Allen made a neat and appropriate reply thanking the members of the Association for their great kindness and expressing his regret at parting with the kind friends whom he had met in Deseronto, and more especially the Young People's Association. He then served cake, coffee, &c., was then dispensed and enjoyed. Rev. R. J. Craig being absent at the meeting of Presbytery was unable to be present but sent a note commending the action of the Association and referring in high terms to the assistance Dr. Allen had given as its President. The Toast was given with many friends in wishing Dr. Allen all success in his new field of labour.

### DRESS GOODS.

In this line our selections are the choicest that trained skill can procure. This branch of our business receives such special care and attention, and has improved so much that it surpasses all others of its kind.

Most of our new goods are to hand. Among them we observe many of the old colors with new names, and very many of the old materials which improvements in the manufacture would lead you to regard as entirely new fabrics.

French All-wool stuffs are very prominent in Greys, Fawns, Cardinals, Browns, Olives, etc., Regies in Grey and Brown are abundant in a variety of qualities and prices.

Nuns Veiling and Jersey Cloth appear in all the new shades. Tweed effects for suitings are seen in double and single widths and are in great demand. Cottons Dress Materials present a very attractive variety of finish. Sateens, Gingham, Chambrays, Zephyrs and Prints appear in great quantities, the latter in some very handsome combinations.

While Black Goods are allowable for mourning, they are by no means limited to such uses.

In fine goods for Spring and Summer, Silk Warp, Henriettes, Serges, Surah, Twills, Melrose Cloths, Camel Hair Grenadine, and the fine grade of Nuns Veiling will be much worn.

Miss Allison needs no commendation from us. She spares no pains in perfecting herself in the art of cutting and fitting Ladies' garments of every description, and informing herself regarding the latest styles. Information regarding styles, etc., cheerfully given to all our customers. See our stock before making your spring purchases.

Fancy Goods.

New goods make our Fancy Goods counter very attractive.

Embroideries, Laces, Swiss Check Muslins, Nam Sooks, Victoria Lawns, Hosiery, Gloves, Ladies Collars and Cuffs in all the new styles.

Frilling in White Cream, Fancy Tinsels and Black. Children's embroidered Collars and Bibs. Children's Sailor Collars embroidered, etc., in completed assortment.

COTTONS.—Cottons are undoubtedly with us the best value you can procure in the market. We speak positively on this point. Prices are 3, 4, 5, 6, 7, 8, 9 and 10c. per yard. We will consider it a pleasure to show them to you even if you don't wish to buy.
